

# BeeSpace Long Beach Home Improvement Expo — visit our table

Sat May 30, 2026 • 11 a.m.–2 p.m. • Whaley Park,  
5620 Atherton St., Long Beach • [longbeach.gov/lbcd/home-expo/](https://longbeach.gov/lbcd/home-expo/)

**Bring a photo of your lot — free site chat at our table.**

## Got a lot that needs activation?

See the full BeeSpace lot project — layouts, materials, planting, and how we think about the whole site — at [beespace.live](https://beespace.live)

## Homeowner: backyard bees

We help you get started, then you keep learning with clubs or paid mentors.

**Permitting** — initial help navigating what applies to your address.

**Bees** — free bees from swarms when we have a rescue available; otherwise advice on buying bees from reputable vendors.

**After setup** — ongoing instruction through local bee clubs, or one-on-one lessons from local beekeepers at a rate you negotiate with them (not BeeSpace).

**Forage** — free seeds to grow more flowers for your new bees.

## Availability

Swarm bees and seed packs depend on season and supplies — ask at our table what we have today and how to get on the list.

*Illustration: starter hive — actual box is small plastic.*
